BUSINESS & DATA ANALYST — FINANCIAL ANALYSIS — PYTHON, EXCEL & QGIS

Email: fatimamahmood1311@gmail.com — LinkedIn: linkedin.com/in/fatima-mahmood-b49736276 —
GitHub: github.com/Fati-00M

BBA graduate and early-career business and data analyst with experience across banking operations, commodities markets, business development and environmental research. Co-Founder and Environmental Research Lead at EcoIndus, developing Python-based data workflows, QGIS maps and public dashboards on environmental and socioeconomic risks in Pakistan. Skilled in financial analysis, Excel, Python, research and data visualization, with a particular interest in analyst roles combining commercial understanding with evidence-based decision-making.

Work Experience

Dec 2025 – Present

[EcoIndus Website](#)
[Deforestation Dashboard](#)
[Fire Alerts Dashboard](#)
[Population & Settlements](#)

Co-Founder & Environmental Research Lead — EcoIndus

Co-founded a nonprofit research initiative monitoring environmental and socioeconomic risks associated with climate emergencies in Pakistan.

Developed public dashboards covering deforestation, fire alerts, population and settlements using Python, QGIS, Google Earth Engine and GitHub Pages. Translated technical findings into accessible maps, dashboard narratives and research outputs for nontechnical audiences.

Apr 2024 – December 2024

Business Development Officer at Enrichers Private Limited (Commodities Trading)

Completed practical training in futures and commodities markets, including risk management, diversification, and margin-based trading. Daily KPIs of 70 cold calls and 2 meetings with prospects. Applied fundamental and technical analysis concepts to evaluate market movements and trading decisions.

Dec 2023 – Feb 2024

Business Development Officer, HelpTribe

Supported lead generation and client outreach, assisted with website content and online visibility.

Jul 2023 – Sep 2023

Internship at Askari Bank (Banking and Finance)

Supported account-opening documentation, balanced journal vouchers, prepared daily clearance reports, and processed cheques and deposits with attention to accuracy and compliance.
